PLAN OF ACTION AGAINST DRUGS

Aim

Torsbergsgymnasiet is to be a drug-free school. No handling with or usages of drugs shall take place in school. By drugs is meant alcohol, narcotic substances and body enhancing substances.

The Headmaster is held responsible for updating this plan.

Preventive work

The 'Plan of Action against Drugs' is used when there is a suspicion, or evidence of illegal substances being used. The Health and Medical staff of the school can support the staff when there is a suspicion of, or evidence of drug usages among the students. The school works after a model called "Drug free school" together with the Social Service.

All students and their guardians are encouraged to familiarise themselves with the content of this document and to sign the agreement found in the appendix.

Preventively the police may carry through a search for drugs after an initiative of the school management. This will be performed after school hours.

Measures to be taken on suspicion of drug usage by a student

The person discovering that a student is under the influence of drugs, or suspects that a student might be taking drugs shall immediately contact the Headmaster. The student's Class teacher will then be informed. The Headmaster brings the issue to the Medical and Health team and decides on further actions. Contact is made with the Social Services. The student will be informed about the allegations brought forward and will have the opportunity to inform his or her guardians

before they are contacted by the Class teacher. If the student is above the age of 18 an agreement will be made before the guardians are involved.

Measures to be taken on possession and/or dealing in School

To possess or deal drugs including dealing of alcohol to anyone under the age of 20 are illegal actions. A student being caught committing such actions in school will immediately be reported to the police and to the Social Services by the Headmaster. The Headmaster can initiate a decision to suspend the student.

Management at Torsbergsgymnasiet

Appendix 1 Agreement Torsbergsgymnasiet

AGREEMENT

We are fully in agreement with the school active work against abuse of alcohol and narcotic substances. By signing this document we accept that the school at the slightest suspicion of abuse of alcohol and drugs and without notifying me as a guardian, or to me as a student beforehand, will have the right to do a drug test.

This agreement is valid for as long as the student is registered at our school. Most likely the student will turn 18 during this time and therefor also have to sign this agreement in person. This document will be archived at the responsibility of the Headmaster.
